CAREER OUTCOMES

Qualified electricians are sought after in a range of industries operating in manufacturing, construction and mechanical trades.

Promotion to supervisory, team leader and management roles is possible.

Career options can include working at factories that make or repair electrical machinery and equipment, dockyards, government departments, and as an electrical contractor supplying, installing and servicing electrical equipment in residential and commercial environments.

With experience and further study, electricians may upgrade their qualification to specialise as a technician, technologist or engineer.
