

MIGAS

APPRENTICES & TRAINEES

FIND YOUR FUTURE TRADE

TRADE YOU?

WE ARE HELPING MORE YOUNG PEOPLE realise working in a skilled trade is the smart choice to embark on a rich, secure and satisfying career.

OWN YOUR FUTURE.

An apprenticeship lets you earn and learn straight out of school, and take your place in a world that has never needed you more. With Australian industry currently seeing a major shortage of skilled workers, we'd go so far as to say top tradespeople can expect to be spoiled for choice. 

A TRADE CAN...

set you on a path to shape your own career faster and with a whole lot more flexibility.

Want to be a top earner running your own business one day? You can.

HOW ABOUT TRAVELLING THE WORLD...

with a transferable skill in your back pocket?

You've got it. Like the idea of taking your trade home to help loved ones or boost your own wealth? Easy.

**THAT'S WHAT WE CALL
WORKING TO LIVE.**

YOU CAN MAKE IT.

LEARNING A HANDS-ON TRADE IS A SKILL FOR LIFE.

You learned it, you earned it and no one can take that away. A career in a skilled trade is about making, building, fixing, patching, crafting, wiring, welding - it's about creating something, solving problems, contributing to the bigger picture and making things work. Now, that feels good.

LET THERE BE LIGHT.

FOUR WALLS AND THE GLOW FROM YOUR SCREEN, OR THE GREAT OUTDOORS WITH THE WORLD AT YOUR FEET?

We think the choice is a breeze to make.

Working in a skilled trade can take you around your city, interstate and even overseas - you can work at great heights, on sites and even underground. No two days are the same and the opportunities are endless.
